What are we talking about?

Diversity

race, color, ethnicity, nationality, religion, socioeconomic status, veteran status, education, marital status, language, age, gender, gender expression, gender identity, sexual orientation, mental or physical ability, genetic information, and learning styles.

Inclusion

Authentically bringing traditionally excluded individuals and/or groups into processes, activities, and decision/policy making in a way that shares power and ensures equal access to opportunities and resources.
“Diversity is being invited to the party. Inclusion is being asked to dance.”

- Verna Myers (DEI Expert)
What about Equity?

**Equity** - Guarantee of fair treatment, access, opportunity, and advancement for all while striving to identify and eliminate barriers that have prevented the full participation of some groups.

*The principle of equity acknowledges that there are historically under-served and under-represented populations and that fairness regarding these unbalanced conditions is needed to assist equality in the provision of effective opportunities to all groups.*
Progress on gender diversity - Case for Intentionality

Change from 2014 - 2019

3 Key Takeaways

- Meaningful advancements for women across highly visible categories
- Women of color have not seen same gains
- Inclusion continues to be a blind spot for women
Inclusion needs attention

Promoting diversity does not ensure a culture of inclusion

We used a **social listening approach** to analyze employer reviews posted online.

Overall sentiment on diversity is positive

- **52%** positive
- **31%** negative

But sentiment on inclusion is the opposite

- **29%** positive
- **61%** negative
