Let's GO There

THE IDEA

The most exciting thing about travel happens the moment you decide to go somewhere.
GRAPHIC ELEMENTS
HORIZONTAL LOCK-UP + WALKUP LINE

Our new walkup line READY? SO ARE WE. reflects a shift to a more prescriptive message. The walk-up line must always be used with the logo.

CLEAR SPACE

When the tagline lock-up is accompanied by additional text or other graphic elements, it’s imperative that the clear space be maintained around the lock-up to protect it from visual interference from other elements on the page.

As a rule, a minimum distance –equal to the height of the "e"– must be maintained around the lock-up.

MINIMUM SIZE

For general printing processes, the horizontal tagline should not be reproduced below 2.5" in width or a Minimum 6.5pt of the walkup line. If smaller tagline is needed consider the 2 or 5 line lock-up.
HORIZONTAL LOCK-UP

Use the following rules to help determine the size ratio and placement of the tagline and branded logo:

1. The brand logo will always appear underneath the tagline.
2. When determining the size of the brand logo, always maintain the height of the “s” in the tagline.
3. The brand logo should always be centered from the ThereFinder.
4. The space between the ThereFinder and the brand logo should be 1/2 the height of the “s” in the tagline.

CLEAR SPACE

When the lock-up is accompanied by additional text or other graphic elements, it’s imperative that the clear space be maintained around the lock-up to protect it from visual interference from other elements on the page.

As a rule, a minimum distance –equal to the height of the “e”– must be maintained around the lock-up.

MINIMUM SIZE

For general printing processes, the horizontal lock-up should not be reproduced below 1.5” in width.
INCORRECT USAGE

Do not place the lock-up on a busy background.
Do not alter the proportions of any element in the lock-up
Do not substitute other typefaces in the lock-up
Do not alter the size relationship of the mark in the lock-up
Do not substitute colors in the lock-up
Do not place the lock-up on a non legible background
Do not use the logo without the walk-up
The **Therefinder** is our evolution of the geo-locator icon we’ve all become accustomed too.

Now, we use it as a visual device in our brand communications that pinpoints the place, the experience, or emotion you want to enjoy. It’s our way of highlighting the anticipation that comes with planning the perfect getaway.

**USAGE**

When using the “Therefinder” as a graphic, it should always lock to the experience a person/s is having within a place or an important object that tells the story of the environment.

If used in print or other static assets, the “Let’s Go There” logo lock-up should be present to reinforce the campaign message.

If used in video or animation, the “Therefinder” can be used independently but the “Let’s Go There” logo lockup must be used in an end card sequence to pay off the visual device.

Please see “Campaign Samples” section for example usage of the “Therefinder.”
The new #LetsGoThere hashtag should be used in all social media posts, if possible. This more action-oriented hashtag aligns with the culmination of the campaign that encourages Americans to start traveling now.

The #LetsMakePlans hashtag remains a viable option for destinations or companies who may still be facing marketing restrictions.
CAMPAIGN COLORS

Our primary colors should be dominant when creating any public-facing materials. Using these colors dominantly in our communications reinforces our brand, builds brand awareness, through our campaign and aids brand recall and expresses the sophisticated, optimistic, and positive aspects of our brand.
TYPOGRAPHY

Proxima Nova and Charter are classic and modern and its range of weights allows you to be slightly bolder with headlines, while the middle weights read well for body copy. Used together, they build a clear hierarchy all while creating an inviting and sophisticated look.
TYPOGRAPHY TREATMENT

Our two type families do not constitute a shift in tone. They are both modern, accessible and inclusive and work paired together or individually.

Proxima Nova should be used as our primary type treatment for most marketing materials. There should be no periods at the end of a main headline, supers or other stand-alone headlines. When using Proxima Nova, headlines should be upper case to create a sense of presence in a very delicate and sophisticated way.

Charter is our secondary and only needed for bigger, copy heavy executions. The best used of this typeface is paired with Proxima Nova, when there is a need for variety in fonts.

PHOTOGRAPHY

All photography should feature aspirational imagery. These moments should feel candid and unposed, never staged or fake. The environments should feel grand and spectacular, never dull or small. Consider featuring healthy travel practices such as wearing masks, outdoor imagery or distancing.

All photography should be from the U.S., not abroad.

ADLOB
The journey begins the moment we decide to go somewhere. When we say, "let's go there." The travel industry has always encouraged Americans to make plans. And now, research suggests this simple action is all we need. As we remind travelers about their health and safety, let's encourage and inspire them to make travel plans too — as an entire industry.
