GRANT AMOUNT

The grant amount is based on the decline in revenue experienced in 2020 compared to 2019, up to $10 million per applicant (or $5 million if the applicant only has one physical location).

- There is a separate formula for new businesses, based on either an annualization of their average monthly revenue or the difference between their payroll and revenue.

NOTE: Grant amounts will be reduced by any amount previously received under the Paycheck Protection Program. Additionally, grants below $1,000 will not be awarded.

ELIGIBLE USES

Funds can be used to cover payroll costs, scheduled mortgage debt payments (both principal and interest), rent, utilities, supplies and inventory, marketing, insurance, accounting, and any other operational expense incurred between February 15, 2020 and March 11, 2023. For a full list of eligible expenses, please see SBA’s RRF Application Guide.

- By December 31, 2021, applicants are required to report how much of the grant has been spent on eligible expenses.

- Applicants that do not fully spend the funds by December 31, 2021 will be required to submit annual reports to SBA on the use of the grant until the funds are fully expended or the program ends.

NOTE: Businesses are required to return any amount not used on eligible expenses by March 11, 2023.
