In **Iowa**, as our attractions, hotels, restaurants and more were unable to welcome visitors, our once thriving travel and tourism industry was no longer the significant economic driver it had been.

In 2019:

- Domestic and international travelers spent **\$9.8 billion** exploring our state
- For every **\$1 million** spent in Iowa by domestic and international travelers, **7.3 jobs are created**
- The **71,918 travel-supported jobs** represented **5.5% of Iowa's total private industry employment**, without which our **unemployment rate of 2.8%** would have been **8.1% of the labor force**
- Travel spending generated **\$1.1 billion to federal, state and local governments**, which help fund jobs and public programs such as police, firefighters, teachers, road projects and convention centers

Iowa experienced severe losses in 2020.

- Spending by domestic and international travelers **declined by 34%**, shuttering many local businesses and putting our residents out of work
- Due to the decline in spending, **federal, state and local tax receipts declined by 28%**, jeopardizing jobs and public programs—which we need more than ever as we work toward recovery

FROM COAST-TO-COAST, THE COVID-19 PANDEMIC HAS DECIMATED THE NATIONAL TRAVEL INDUSTRY.

2020 SPENDING: \$680.3 BILLION	▼ 42%	2019 SPENDING: \$1.2 TRILLION

Travel will refuel our economy, rebuild our workforce, and reconnect Americans.
