In **Mississippi**, as our attractions, hotels, restaurants and more were unable to welcome visitors, our once thriving travel and tourism industry was no longer the significant economic driver it had been.

In 2019:

- Domestic and international travelers spent **\$7.1 billion** exploring our state
- For every **\$1 million** spent in Mississippi by domestic and international travelers, **12.5 jobs are created**
- The **88,786 travel-supported jobs** represented **9.8% of Mississippi's total private industry employment**, without which our **unemployment rate of 5.5%** would have been **14.8% of the labor force**
- Travel spending generated **\$986.2 million to federal, state and local governments**, which help fund jobs and public programs such as police, firefighters, teachers, road projects and convention centers

**Mississippi** experienced severe losses in 2020.

- Spending by domestic and international travelers **declined by 26%**, shuttering many local businesses and putting our residents out of work
- Due to the decline in spending, **federal, state and local tax receipts declined by 20%**, jeopardizing jobs and public programs—which we need more than ever as we work toward recovery

## FROM COAST-TO-COAST, THE COVID-19 PANDEMIC HAS DECIMATED THE NATIONAL TRAVEL INDUSTRY.
