TRAVEL IS AN ECONOMIC ENGINE
Why Travel Matters to Ohio

TRAVEL AND TOURISM WORKS FOR OHIO

- Domestic and international travelers to Ohio spent $31.6 billion in 2018 and generated $4.1 billion to federal, state and local governments, dollars that help fund jobs and public programs such as police, firefighters, teachers, road projects and convention centers.

- The 248,000 jobs created by travelers to Ohio in 2018 represent 5.3% of the state's total private industry employment.

- Without these jobs generated by domestic and international travel, Ohio's 2018 unemployment rate of 4.5% would have been 8.8% of the labor force.

- For every $1 million spent in Ohio by domestic and international travelers, 7.8 jobs are created.
