

Travel will power our economic recovery. Why travel matters to

OREGON

STATE	SPENDING	PAYROLL	JOBS	TRAVEL INDUSTRY EMPLOYMENT RANKING	TAX RECEIPTS
2019	\$14.1 Billion	\$3.8 Billion	103,282	6	\$1.7 Billion
2020	▼ -38%				▼ -31%

In **Oregon**, as our attractions, hotels, restaurants and more were unable to welcome visitors, our once thriving travel and tourism industry was no longer the significant economic driver it had been.

In 2019:

- Domestic and international travelers spent **\$14.1 billion** exploring our state
- For every **\$1 million** spent in Oregon by domestic and international travelers, **7.3 jobs are created**
- The **103,282 travel-supported jobs** represented **6.2% of Oregon's total private industry employment**, without which our **unemployment rate of 3.7%** would have been **9.6% of the labor force**
- Travel spending generated **\$1.7 billion to federal, state and local governments**, which help fund jobs and public programs such as police, firefighters, teachers, road projects and convention centers

Oregon experienced severe losses in 2020.

- Spending by domestic and international travelers **declined by 38%**, shuttering many local businesses and putting our residents out of work
- Due to the decline in spending, **federal, state and local tax receipts declined by 31%**, jeopardizing jobs and public programs—which we need more than ever as we work toward recovery

FROM COAST-TO-COAST, THE COVID-19 PANDEMIC HAS DECIMATED THE NATIONAL TRAVEL INDUSTRY.

Travel will refuel our economy, rebuild our workforce, and reconnect Americans.
